PROFESSIONAL SUMMARY

Lead UI/UX & Product Designer with over **11+ years of experience** designing enterprise applications, banking solutions, and B2B SaaS products. Skilled in end-to-end product design, UX research, usability testing, interaction design, accessibility, and scalable design systems.

Led UX/UI design for Boubyan Bank's personal finance calculation applications and onboarding journeys, including relationship manager workflows for customer verification and finance eligibility calculations. At Martin Brower, independently built a design system with **10+** components and **100+** design tokens and redesigned the product using user research and usability testing to improve usability and simplify workflows. Experienced in collaborating with product managers, engineers, and business stakeholders to deliver practical, user-centred solutions.

CORE COMPETENCIES

Product & UX Design:
End-to-end Product Design, Interaction Design, User Flows, Information Architecture

Research & Validation:
Desk Research, User Interviews, Usability Evaluation, Accessibility (WCAG)

UI & Prototyping:
Wireframing, High-Fidelity UI, Prototyping, Responsive Design

Design Systems:
Design Tokens, Component Libraries, Reusable Patterns

Collaboration:
Design Thinking Workshops, Stakeholder Alignment, Developer Handoff

AI-Assisted Design:
AI-supported user research synthesis, design exploration, usability improvement ideas, and design system development

PROFESSIONAL EXPERIENCE

Lead UI/UX Designer (Contract)

Myridius Technologies (VNSoft) | Pune | Mar 2026 – Jun 2026

Worked on a product redesign and design system for Martin Brower, a US-based supply-chain business serving Quick Service Restaurant (QSR) chains.

- Independently designed and built the Martin Brower Design System, delivering 10+ core components and 100+ design tokens.
- Redesigned the existing product using user research and usability testing to identify usability issues and simplify workflows.
- Facilitated discovery workshops to understand user needs, gather requirements, and align stakeholders.

- Created user flows, wireframes, and high-fidelity interfaces to improve the product experience.
- Evaluated usability and accessibility, collaborating with stakeholders and developers to align design decisions with user needs and technical feasibility.

Lead Consultant, UI & UX Designer

Areteans Technologies (now part of Credera) | Pune (Remote) | Aug 2021 – Feb 2026

Global digital transformation consultancy delivering enterprise design and technology solutions.

- Led end-to-end UX/UI design for Boubyan Bank's personal and business onboarding journeys and finance calculation applications over approximately 1.5 years.
- Designed the relationship manager workflow for customer verification using CIF or Civil ID, customer detail retrieval, and finance calculations.
- Contributed to a finance calculation application that went live; delivery-team feedback indicated a positive response from the bank, relationship managers, and customers.
- Defined and managed end-to-end product design for the BSI dashboard serving 100+ companies under Omnicom.
- Collaborated with product owners, developers, and stakeholders, and mentored designers through workshops on user insights, prototyping, and design systems.

UX Designer

TCS (Experis IT) | Mumbai (Remote) | Mar 2021 – Jul 2021

Design team focused on interfaces for large-scale enterprise applications.

- Translated UI/UX requirements into low- and high-fidelity wireframes, mockups, and prototypes.
- Worked with designers and stakeholders to deliver interfaces aligned with user needs and business goals.
- Designed visual elements and micro-interactions and helped maintain design systems and brand guidelines.

Senior Web Designer

Tangible Technology (sub-organization of TAI) | Pune | Mar 2019 – Mar 2021

Digital company delivering web and marketing solutions for enterprise and consumer products.

- Designed responsive websites, landing pages, and campaign assets with cross-functional teams.
- Produced layouts and high-fidelity prototypes using Photoshop and Figma.
- Implemented responsive interfaces using HTML, CSS, and basic JavaScript.

Web Designer

AXAT Technology | Navi Mumbai | Jun 2013 – Feb 2019

Technology firm delivering web and digital solutions for global clients.

- Designed web layouts from client prototypes and business requirements.
- Converted visual designs into responsive websites using HTML, CSS, and basic JavaScript.
- Managed design workflows from concept through deployment and maintenance.
- Created brand and marketing assets, including logos, icons, newsletters, brochures, and emailers.
