SUMMERY

I'm a **Lead UI/UX Designer** with over **11+ years of experience** designing digital products that are intuitive, scalable, and user-centered. I specialize in creating experiences that balance user needs, business objectives, and technical feasibility, helping organizations transform complex challenges into simple, meaningful solutions.

Most recently, I worked as a **Lead UI & UX Designer** at **Myridius** Technologies, where I led end-to-end design initiatives and collaborated closely with product managers, business stakeholders, and engineering teams to deliver high-quality digital experiences.

One of my key achievements was leading the UX and UI design for a major banking project for nearly **1.5 years**, where I designed personal and business onboarding journeys along with finance applications, focusing on usability, accessibility, compliance, and scalable design solutions.

Throughout my career, I have collaborated with clients across **Kuwait, Singapore, Australia, the USA,** and other **global** markets, gaining extensive experience in designing enterprise and customer-facing products for diverse industries and audiences.

I'm passionate about creating products that are not only visually appealing but also easy to use, accessible, and impactful. My goal is to design experiences that solve real problems, simplify complexity, and make technology more intuitive for everyone.

EXPERIENCE

Lead UI/UX Designer (Contract '4 month')

Myridius (VNSoft- Payroll company)
DATE: March 2026 – June 2026 | **LOCATION:** PUNE

Myridius, part of VNSoft, provides payroll and workforce management solutions designed to streamline HR and payroll operations for modern businesses. The platform focuses on efficiency, compliance, and scalable payroll management for organizations.

- Leading UI/UX design initiatives for the payroll platform, focusing on improving usability, visual consistency, and overall user experience.
- Building and implementing a scalable design system to ensure consistency across product interfaces and accelerate future product development.
- Conducting usability and accessibility evaluations to identify experience gaps and improve product accessibility standards.

- Facilitating design workshops and discovery sessions with stakeholders to gather requirements and align teams before starting wireframes and high-fidelity designs.
- Designing wireframes, interaction flows, and high-fidelity UI for payroll and HR management features to simplify complex workflows.
- Collaborating with product managers, developers, and stakeholders to ensure design solutions align with business goals and technical feasibility.

Lead Consultant UI & UX Designer.

Areteans Technologies

DATE: August 2021 - Feb 2026 | **LOCATION:** PUNE (WFH) (Office - Hyderabad)

Areteans Technologies, now merged with Credera, is a global digital transformation firm delivering enterprise-level design and technology solutions focused on innovation, scalability, and user experience.

- Defined and managed end-to-end product designs for the BSI dashboard, serving 100+ companies under Omnicom
- Collaborated with product owners, developers, and stakeholders to align designs with technical, user, and business requirements.
- Designed and prototyped web solutions for 'Personal and Business Onboarding' and Finance Calculation Applications' for Boubyan Bank.
- Mentored a team of new designers, conducting workshops on user insights synthesis, prototyping, and design systems.

UX Designer

TCS (Experis It- Payroll company)

DATE: March 2021 - July 2021 | **LOCATION:** Mumbai (WFH)

TCS (via Experis IT payroll) is a global technology and consulting leader providing digital transformation solutions to enterprises. The design team focuses on creating impactful and user-friendly digital interfaces for large-scale business applications.

- Collaborated with graphic and UI designers to conceptualize and deliver high-quality user interfaces.
- Gathered and translated UI/UX requirements into wireframes, mockups, and prototypes.
- Created both low-fidelity and high-fidelity wireframes to communicate design ideas clearly.
- Designed visual elements, graphics, and micro-interactions that enhanced usability and brand identity.
- Supported the team in maintaining design systems and brand guidelines across all deliverables.
- Reviewed and refined visual outputs to ensure pixel-perfect and timely project delivery.
- Worked closely with stakeholders to align designs with user needs and business goals.

Sr. Web Designer

Tangible Technology (Sub Org- TAI)

DATE: March 2019 – March 2021 | **LOCATION:** PUNE

Tangible Technology (a sub-organization of TAI) is a digital technology company offering end-to-end web and marketing solutions for enterprise and consumer products, emphasizing creative design and performance-driven interfaces.

- Collaborated with cross-functional teams to plan, design, and develop responsive websites and marketing materials.
- Conceptualized and designed banners, landing pages, newsletters, and digital campaigns for product promotions.
- Translated design ideas into functional front-end code using HTML, CSS, and JavaScript (basic).
- Produced creative layouts and high-fidelity prototypes using Adobe Photoshop and Figma.
- Demonstrated innovative and out-of-the-box design thinking for campaign visuals and brand communication.
- Created customized website layouts tailored to unique client requirements.
- Designed and optimized multimedia assets (JPG, GIF, Flash) for ads and digital communication.
- Ensured all deliverables aligned with client branding, accessibility standards, and performance goals.

Web Designer

AXAT Technology

DATE: June 2013 – February 2019 | **LOCATION:** Navi Mumbai

AXAT Technology is a fast-growing technology firm delivering innovative web and digital solutions for global clients, focusing on responsive design, performance, and creativity.

- Designed web layouts in Adobe Photoshop based on client prototypes and business requirements.
- Converted UI mockups into responsive, functional websites using HTML, CSS, and basic JavaScript.
- Managed end-to-end project workflows — from concept, development, and review to deployment and maintenance.
- Created a wide range of graphics and visual assets, including logos, icons, newsletters, and marketing creatives using Photoshop and Illustrator.
- Implemented design solutions ensuring usability, optimized graphics, and fast-loading performance.
- Designed creative materials like banners, brochures, leaflets, posters, stall designs, and emailers, maintaining consistent visual identity.
- Supported internal and client brand teams by providing layout ideas, animation-ready presentations, and visual concepts for campaigns.
